Skills for Education and Employment Contextualised Training

STATUS

see skills for education and employment
An Australian Government Initiative

In the Skills for Education and Employment (SEE) program you can improve your skills in reading, writing, math, digital skills and English as an additional language in order to help you participate more effectively in training or in the labour force. Contextualised training will provide you with training that is specific to your needs, or the industry that you are looking to work in.

Prepare-2-Work

The Prepare-2-Work short course is designed to provide you with language, literacy, numeracy, and digital skill development, with a strong focus on employability skills.

Digital Essentials

The Digital Essentials training program is designed to provide you with the skills to operate digital devices for work or job searching. You do not need to know how to use a computer to undertake this training.

The Skills for Education and Employment (SEE) program is funded by the Australian Government Department of Education, Skills and Employment.
